Builder. Architect. Closer. — Entrepreneurial executive with 30+ years across finance, sales, and business development who crossed over into hands-on AI systems development. Founder of **Integrated Efficiency (IEBC)**, where I personally architect and code enterprise AI platforms — multi-agent command centers, real-time dashboards, full-stack web applications, mobile apps, database systems, and automated business workflows. I don't just manage tech teams. I build the product.

BUILT PROJECTS — PORTFOLIO

Eagle Eye Command Center

ENTERPRISE SPA · 26,000+ LINES

Full-stack enterprise operations hub with real-time email client, AI agent coordination (Bond Office), multi-persona inboxes, CRM pipeline, document vault, financial dashboards, carrier management, and fleet tracking. Built as a single-page application with zero frameworks.

HTML5/CSS3/JS

Supabase

Email System

AI Agents

Real-Time

IEBC Multi-Agent AI Hub

AI SYSTEM · 50+ PERSONAS

Enterprise AI command center with 50+ specialized AI personas operating autonomously. Persistent memory via pgvector embeddings, long-term agent context, multi-persona coordination, and orchestrated workflows across sales, ops, compliance, and finance functions.

Claude API

pgvector

Supabase

Python

Agent Orchestration

3 Lakes Logistics Platform

FULL-STACK WEB · MOBILE APP

Full logistics operations platform: driver onboarding portal, fleet tracking, carrier agreement automation, load management, safety monitoring (Shield), settlement

Automated Document Engine

PDF GENERATION · LEGAL DOCS

Python-based document generation system producing professional NDAs, carrier agreements, rate confirmations, lease agreements, driver contracts, and

automation (Settler), and a published Android mobile app on Google Play Store.

financial roadmaps dynamically. Includes e-signature workflow and OCR document processing pipeline.

- Python
- ReportLab
- OCR
- E-Signature
- HTML Templates

ERP Replacement Suite

ENTERPRISE ARCHITECTURE · 14 PHASES

14-phase enterprise resource planning architecture designed to replace legacy ERP systems. Covers finance, HR, fleet ops, compliance, and reporting with AI-augmented modules, real-time BI dashboards, and Supabase-backed data infrastructure.

- System Architecture
- Supabase
- BI Dashboards
- AI Modules

Lead Engine & CRM Pipeline

AUTOMATION · SALES INTELLIGENCE

Automated lead generation, scoring, and outreach system. Airtable-to-Supabase migration, SMS/email drip sequences, carrier prospect pipeline, scarcity matrix for lead pricing, and market intel reporting — all fully automated with AI decision logic.

- Automation
- Supabase
- Twilio
- Email API
- AI Scoring

SERVICES OFFERED

Full-Stack Web Development

Custom web apps, dashboards, and portals — built from scratch with no bloated frameworks. Responsive, fast, and production-ready.

AI Agent & Automation Systems

Multi-agent AI systems using Anthropic Claude API. Persistent memory, autonomous workflows, persona-based operations.

Database Architecture & Development

Supabase/PostgreSQL schema design, vector search, row-level security, real-time subscriptions, and data migrations.

Mobile App Development

Android apps via Capacitor.js, published to Google Play. PWA-first approach for cross-platform reach without redundant codebases.

Workflow & Process Automation

End-to-end business automation: lead generation, document processing, email/SMS sequences, onboarding, settlement, and compliance.

Business Infrastructure Build-Out

"Automate Your Hustle" — full business stack in 6 weeks: website, CRM, AI agents, document systems, email, and ops dashboard.

Executive Advisory & Strategy

30 years of C-suite perspective applied to AI strategy, revenue modeling, capital markets, and operational scaling decisions.

Document Automation & Legal Tech

Automated NDAs, contracts, rate confirmations, and compliance docs — generated dynamically, signed electronically, filed instantly.

EXECUTIVE CAREER HISTORY

INTEGRATED EFFICIENCY (IEBC BUSINESS CONSULTANTS)

2025 – Present

Founder & CEO — AI Systems Architect

- Personally architected and coded the "IEBC Enterprise Hub" — a 26,000+ line multi-persona AI command center featuring 50+ specialized AI personas for autonomous business operations.
- Deployed full-stack web platform (Eagle Eye) with real-time email client, CRM pipeline, document vault, carrier management, fleet tracking, and AI agent orchestration.

- ▶ Built and published Android mobile app to Google Play Store using Capacitor.js and FastAPI backend deployed on Render with Docker.
- ▶ Engineered persistent AI memory systems using Supabase and pgvector — enabling agents to maintain long-term context across sessions.
- ▶ Designed 14-phase ERP replacement architecture replacing legacy systems with AI-augmented Supabase infrastructure.
- ▶ Developed automated document engine generating NDAs, carrier agreements, and rate confirmations dynamically via Python ReportLab.
- ▶ Delivered "Automate Your Hustle" client framework — full business infrastructure in 6-week cycles; average 22 hours/week saved per client.

3 LAKES LOGISTICS

2024 – Present

Founder & CEO — Technology Architect

- ▶ Founded and built a technology-first freight brokerage operation from scratch, including all software infrastructure.
- ▶ Built full logistics platform: driver onboarding, load management, fleet safety monitoring, automated settlement, and carrier outreach — all custom-coded.
- ▶ Architected Supabase database with 20+ tables, real-time subscriptions, row-level security, and cross-system data integrity.
- ▶ Deployed multi-channel automated outreach (SMS + email) for carrier acquisition and load coverage with AI-assisted scoring.

NORTHWEST TICKET & INVESTMENT COMPANY

2001 – Present

CEO / Owner

- ▶ Founded and operate a multi-million dollar national sales operation with \$20M+ in lifetime revenue.
- ▶ Built and manage end-to-end client lifecycle, strategic marketing, and high-leverage automated sales systems.

KORN FERRY INTERNATIONAL

2001 – 2002

Executive Recruiter

- ▶ Spearheaded C-suite (CEO, CFO, COO) placements for global organizations across medical device, telecom, and financial sectors.

OPPENHEIMER & COMPANY / INVESTMENT FIRMS

1991 – 2001

Financial Advisor / Asset Manager

- ▶ Managed high-net-worth client assets exceeding \$100M across capital markets and portfolio growth strategies.
- ▶ Maintained Series 6, 7, 65, and Insurance licenses — full regulatory and fiduciary compliance across 10 years.

EDUCATION & CERTIFICATIONS

University of Hawaii — Honolulu, HI

FINRA Licenses (Active/Previous)

Bachelor of Science in Marketing
