

IEBC BUSINESS CONSULTANTS

3 Lakes Logistics LLC — Portfolio Company

REVENUE ROADMAP: \$10,000 IN 90 DAYS → \$100,000 IN 12 MONTHS

Prepared for: Mark Odom, CEO | Confidential Strategic Planning Document

THE HONEST STARTING POINT

You have two revenue engines already built:

- **3 Lakes Logistics LLC** — a running AI-powered freight dispatch operation with a proven 10% service fee model, targeting cargo vans, sprinters, SUVs, and passenger cars.
- **IEBC Business Consultants** — a consulting firm with a CEO and incoming CSO, infrastructure (NDAs, contracts, hiring), and the strategic capability to serve small-to-mid size business clients.

The fastest path to \$10K in 90 days uses BOTH engines simultaneously — not sequentially. The path to \$100K in 12 months comes from systematizing what works at the 90-day mark and scaling it.

PHASE 1: \$10,000 IN 90 DAYS

Start Today — Week 1 Actions Are Listed Below

STREAM 1 — 3 Lakes Logistics: Freight Dispatch Revenue (Target: \$5,000–\$6,000)

Your 10% dispatch fee model is your fastest cash generator. The math is simple:

Drivers/Carriers Active	Avg Load Value	Loads/Driver/Month	Your 10% Fee	Monthly Revenue
3 active drivers	\$800/load	4 loads/month	\$80/load	\$960/mo
5 active drivers	\$800/load	5 loads/month	\$80/load	\$2,000/mo
8 active drivers	\$900/load	6 loads/month	\$90/load	\$4,320/mo

Do this TODAY to generate 3LL revenue:

- Post on Facebook Groups, trucking forums, and Craigslist gig sections: 'Cargo van / sprinter owners — we dispatch loads for you. You drive, we handle the booking. 10% fee.' Target your city AND Tacoma (Cecilia's market).

- Contact 5 independent cargo van or sprinter owners in your network this week. Offer a free first load dispatch to prove the model.
- Activate your 123Loadboard API integration — have your AI agents scanning and bidding on small freight loads NOW.
- Set up a simple one-page website or landing page for 3 Lakes Logistics with a driver sign-up form.
- Join DAT, Truckstop, or uShip to expand load access beyond 123Loadboard.

STREAM 2 — IEBC Business Consultants: Consulting Revenue (Target: \$4,000–\$5,000)

IEBC can generate revenue immediately by selling what you already know how to do. Small businesses desperately need strategy, structure, and execution help.

Service	Price Point	# to Sell in 90 Days	Revenue
Business Strategy Session (2 hrs)	\$250–\$400	5 sessions	\$1,250–\$2,000
Business Plan / Pitch Deck	\$750–\$1,500	2 plans	\$1,500–\$3,000
NDA / Contract Package	\$300–\$500	3 packages	\$900–\$1,500
Monthly Retainer (light advisory)	\$500–\$800/mo	1 client	\$500–\$800

Do this TODAY to generate IEBC revenue:

- Post on LinkedIn TODAY: 'IEBC Business Consultants is now accepting 3 new clients for Q3. We help small businesses build strategy, structure, and scalable operations. DM for a free 30-minute discovery call.'
- Email 10 people in your network who own or run small businesses. Offer a discounted strategy session (\$150) for the first 3 who book this week.
- List IEBC on Google Business Profile, Alignable, and Thumbtack as a business consulting firm.
- Offer the NDA/contract package you already built as a product — small businesses pay \$300–\$500 for professional legal-grade agreements.
- Pitch 1-2 local small businesses on a \$500/month light advisory retainer — 2 calls/month + email support.

90-Day Revenue Summary: 3LL (\$5,500) + IEBC (\$4,500) = \$10,000 ✓

PHASE 2: \$100,000 IN 12 MONTHS

At month 3, you know what's working. The \$100K path is about doubling down on your strongest stream and systematizing the other. Here is the monthly revenue breakdown required:

Month	3LL Target	IEBC Target	Monthly Total	Running Total
1–3	\$1,800/mo	\$1,500/mo	\$3,300/mo	\$9,900
4–6	\$3,500/mo	\$3,000/mo	\$6,500/mo	\$29,400
7–9	\$5,500/mo	\$4,500/mo	\$10,000/mo	\$59,400
10–12	\$7,500/mo	\$6,000/mo	\$13,500/mo	\$100,000+

HOW 3 LAKES LOGISTICS GETS TO \$7,500/MONTH

- **Months 1–3:** Sign 5–8 drivers. Focus on cargo vans and sprinters. Use AI agents to dispatch 3–5 loads per driver per month.
- **Months 4–6:** Target 15 active drivers. Introduce a driver referral bonus (\$50 per driver they bring). Expand to Tacoma/Pacific Northwest market through Cecilia Gulley (CSO) who is already on the ground there.
- **Months 7–9:** Aim for 25+ drivers. Add a dedicated account rep to handle driver relationships. Begin targeting small courier and last-mile delivery companies as fleet clients (dispatch 10+ vehicles under one contract).
- **Months 10–12:** Lock in 2–3 fleet accounts (companies with 5–10 vans). These are \$1,500–\$3,000/month contracts each. One fleet account alone can hit your monthly target.

HOW IEBC BUSINESS CONSULTANTS GETS TO \$6,000/MONTH

- **Months 1–3:** Land 3–5 one-time consulting projects. Build your case studies and testimonials from these.
- **Months 4–6:** Convert 2–3 one-time clients into monthly retainers at \$750–\$1,000/month. Add Cecilia as CSO — she begins managing client delivery while you focus on business development.
- **Months 7–9:** Introduce a flagship consulting package: 90-Day Business Transformation (\$3,500 flat fee). Target small businesses doing \$250K–\$1M/year. Sell 1–2 per month.
- **Months 10–12:** Stack retainers + project work. Goal: 4 retainer clients at \$800/mo (\$3,200) + 2 project engagements at \$1,500 each (\$3,000) = \$6,200/month.

THE LEVERAGE POINT: HOW IEBC AND 3LL MAKE EACH OTHER MORE VALUABLE

This is what most people miss. You don't have two separate businesses — you have a consulting firm that ALSO runs a logistics company. That combination is your competitive advantage:

- **IEBC can sell logistics consulting** to small trucking companies, independent dispatchers, and freight brokers — using 3LL as the proof of concept. 'We built and operate our own AI-dispatched fleet.'

Now we'll help you build yours.'

- **3LL can be the case study** that lands IEBC consulting clients. Show the AI automation, the 10% fee model, the scale. Clients will pay to replicate it.
- **Cecilia Gulley (CSO, Tacoma)** opens the Pacific Northwest market for BOTH businesses simultaneously — 3LL drivers in Tacoma/Seattle AND IEBC consulting clients in Washington State.
- **Bundle the offer:** Offer small logistics businesses a package — 'IEBC will consult on your operations AND put your drivers on the 3LL dispatch platform.' Charge \$2,000 upfront + 10% ongoing.

START MAKING MONEY TODAY — YOUR NEXT 7 DAYS

DAY	ACTION	EXPECTED RESULT
Today	Post driver recruitment ad on Facebook, LinkedIn, Craigslist. Text/call 5 van/sprinter owners you know personally.	1–3 driver inquiries
Today	Post IEBC consulting offer on LinkedIn. Email 10 business owner contacts — offer free 30-min call.	2–4 discovery calls booked
Day 2	Activate 3LL AI agents on 123Loadboard — begin scanning and bidding on loads.	First load dispatched
Day 3	Set up IEBC Google Business Profile. List on Alignable and Thumbtack.	Online visibility live
Day 4	Follow up on all driver inquiries — onboard your first driver. Send dispatch agreement.	First driver signed
Day 5	Run first IEBC discovery call. Pitch strategy session or business plan package.	First paid client
Day 6–7	Brief Cecilia Gulley on the 90-day revenue plan. Assign her Tacoma market outreach for both 3LL drivers and IEBC clients.	West Coast pipeline opens

The only thing standing between you and \$10,000 is execution. You already have the infrastructure.

WHAT TO AVOID — COMMON TRAPS

- **Don't wait until everything is 'perfect.'** The NDA is done. The contracts are done. Start selling today with what you have.
- **Don't try to build the technology before you have revenue.** The AI dispatch system is an asset — use it to generate cash, don't keep building it without clients.
- **Don't undercharge.** IEBC consulting is worth \$300–\$1,500+ per engagement. Don't discount below your value to chase easy sales.
- **Don't ignore the Tacoma market.** Cecilia on the ground in the Pacific Northwest is a free business development asset. Put her to work on revenue from day one.
- **Don't try to do everything alone.** That's why you hired a CSO. Delegate client delivery and driver onboarding to Cecilia so you can focus on closing new business.
