

TruckSmarter Partnership Playbook

A complete step-by-step execution guide for Cecilia Gulley, CSO — covering broker enrollment, partnership outreach, revenue model, email sequences, and integration roadmap for the TruckSmarter opportunity.

PREPARED FOR

Cecilia Gulley — CSO, 3 Lakes Logistics / IEBC

PREPARED BY

Mark Odom — CEO, IEBC Business Consultants

DATE

June 2026

PRIORITY

Execute Within 7 Days

1 THE OPPORTUNITY — WHAT IS TRUCKSMARTER?

The One-Sentence Summary

TruckSmarter is a free trucking super-app used by hundreds of thousands of owner-operators and small carriers — they need brokers to post loads AND they need carrier tech to monetize their user base. We have both.

What TruckSmarter Is

A VC-backed (\$20M+ raised) free trucking app built for owner-operators. Features a free load board, fuel card, factoring, insurance, and business tools — all in one mobile app for drivers who run 1–5 trucks.

Their Business Model

They give the load board away FREE to build a massive carrier audience, then monetize that audience through fuel cards, factoring, insurance, and premium tools — exactly like how apps make money on services, not subscriptions.

Why This Matters for Us

TruckSmarter already has the audience we need — owner-operators actively looking for loads. We have two things they need: (1) **loads to put on their board** from 3LL, and (2) **carrier tech they can sell their users** through IEBC. This is a two-channel deal, not just a lead generation play.

Play 1 — Post 3LL Loads (Free)

Sign up as an approved freight broker on TruckSmarter and post 3LL loads directly to their driver network. Zero cost. Gets us carrier coverage on lanes without paying DAT/Truckstop fees.

Saves \$300–\$500/mo in board fees. Faster coverage on hard lanes.

Play 2 — Carrier Recruitment

Every driver who books a 3LL load through TruckSmarter enters our automated carrier onboarding sequence. Eagle Eye captures them, sends agreements, and adds them to our preferred carrier network.

Low-cost carrier acquisition. Every new carrier = reduced coverage costs long-term.

Play 3 — IEBC Tech Partnership

IEBC's carrier ops suite (dispatch automation, documents, settlement, onboarding, mobile app) gets offered to TruckSmarter's user base. TruckSmarter sells it, marks it up, keeps the margin — we get wholesale recurring revenue.

Recurring monthly revenue per carrier user. 100 carriers = \$5K–\$15K/mo wholesale.

Play 4 — Eagle Eye Integration

Connect Eagle Eye directly to TruckSmarter's API. 3LL loads auto-post to TruckSmarter when entered. Carrier responses come back into Eagle Eye's inbox. Bond Office AI agents handle coverage automatically.

Eliminates manual board posting. AI runs coverage 24/7 without a dispatcher.

3 STEP-BY-STEP EXECUTION — WEEK 1

Do these in order

Cecilia — Start Here. Do These First.

The steps below are in priority order. Complete the broker signup first (it takes a few days to approve), then run the LinkedIn and email outreach simultaneously. Do not wait on the tech conversation until broker approval is confirmed.

1

DO TODAY

Sign Up as a Broker on TruckSmarter

Go to **trucksmarter.com** → look for "For Brokers," "Broker Portal," or "Post Loads" in the navigation or footer.

You will need: **3LL's MC number**, DOT number, company name, and your contact email. Fill out the broker application completely. Use **cece@3lakeslogistics.com** as the account email so all carrier communications route to Eagle Eye.

Approval typically takes 1–3 business days. Once approved, you'll get login credentials to their broker posting portal.

2

DO TODAY

Find the Right Contact on LinkedIn

Go to **LinkedIn.com** → search "TruckSmarter" → click the company → click "People."

Search for titles: **"Head of Partnerships," "VP Business Development," "Director of Partnerships," "Head of Growth," "BD Manager."**

If you find a direct match, send a connection request using the LinkedIn message script in Section 4 of this guide. If no clear BD contact exists, look for the **CEO or COO** — TruckSmarter is a startup, so the founders may handle partnerships directly.

Write down the name and title before moving to Step 3.

3

DO TODAY

Find Their Direct Email Address

Try these in order:

1. Check their website footer/contact page for a partnerships or business email
2. Try **partnerships@trucksmarter.com** and **bd@trucksmarter.com** — common formats for startups
3. Use **hunter.io** (free plan) — type "trucksmarter.com" to find verified email addresses on their domain
4. Look at their LinkedIn "About" section — some companies list an email there

Once found, save it. You'll use it in Step 5.

4

TODAY / TOMORROW

Send the LinkedIn Connection Request

Use the **exact LinkedIn message in Section 4** of this guide. Do not deviate from it. Do not write a generic "I'd like to connect." The message in this guide is specifically written to get a response from a partnerships person.

Important: Do NOT pitch the full tech deal in the connection note. The goal of this message is only to get the connection accepted. The pitch comes in email.

5

DAY 1–2

Send the Partnership Email

Use the **exact email in Section 5** of this guide. Send it from **cece@3lakeslogistics.com** via Eagle Eye.

Fill in the [Name] field with the contact you found in Step 2. Send it in the **morning (8–10am their local time)** for best open rates — TruckSmarter is based in San Francisco (PT).

Do not attach anything to this first email. Keep it clean. The goal is a reply confirming a call, not a document dump.

6

AFTER BROKER APPROVAL (DAY 2–4)

Post Your First Load on TruckSmarter

Once broker access is approved, log into the broker portal and post 3LL's first available load.

What to post: Choose a load on a popular lane (Midwest to Southeast, or any full truckload with good rate). Post with full details — origin, destination, weight, equipment type, rate, and contact number.

This does two things: Gets us immediate carrier coverage AND gives us proof that we're already an active broker on TruckSmarter when we talk to their partnerships team. It makes us a real partner, not just a prospect.

7

DAY 3–7

Report Back to Mark

After completing Steps 1–6, report the following to Mark:

- ✓ Broker application submitted? (Y/N) — Date submitted
- ✓ LinkedIn contact found? Name + title
- ✓ LinkedIn connection request sent? (Y/N)
- ✓ Email sent? (Y/N) — Date sent, recipient name
- ✓ Any replies received?
- ✓ First load posted? (Y/N)

Use Eagle Eye to track all communications. Log everything.

4

LINKEDIN CONNECTION MESSAGE

Use this word for word

Instructions

This is a short, specific connection note. LinkedIn limits connection notes to 300 characters. Copy the message below exactly. Replace [First Name] with their actual first name. Do NOT add anything else.

LINKEDIN CONNECTION NOTE — COPY EXACTLY (300 CHAR MAX)

Hi [First Name] — I'm the CSO at 3 Lakes Logistics. We're an active freight broker exploring load board and tech partnerships. I think there's a clean revenue fit between what TruckSmarter is building and what IEBC has built for carriers. Would love to connect.

What to Do When They Accept

Once they accept the connection, send a brief follow-up LinkedIn message: "Thanks for connecting [First Name]. I'll shoot you a quick email with what I have in mind — keep an eye out from cece@3lakeslogistics.com." Then send the email in Section 5 immediately.

5

PARTNERSHIP OUTREACH EMAIL

Send from Eagle Eye — cece@3lakeslogistics.com

Instructions Before Sending

Replace [Name] with the contact's first name. Replace [Title] with their actual title. Send from **cece@3lakeslogistics.com** on a Tuesday, Wednesday, or Thursday morning between 8–10am Pacific time. Do not send Friday afternoon or Monday morning.

FROM: Cecilia Gulley <cece@3lakeslogistics.com>

TO: [Name] <[email]@trucksmarter.com>

SUBJECT: Partnership Opportunity — Revenue-Share on Carrier Tech Your Drivers Already Need

Hi [Name],

I'll keep this short because I know your inbox is competitive.

My name is Cecilia Gulley. I'm the Chief Strategy Officer at **3 Lakes Logistics** and **IEBC Business Consultants** out of Detroit. Our CEO Mark Odom asked me to reach out because we think there's a clean two-sided opportunity with TruckSmarter — and a direct revenue line in it for your team.

Who we are:

3 Lakes Logistics is a licensed freight brokerage actively posting loads and building carrier relationships. IEBC Business Consultants is our parent tech company — we build AI-powered business infrastructure for small carriers and owner-operators.

What we've built that your users need:

Your driver base is running 1–5 trucks with no back-office. The moment they book a load, the chaos starts — paperwork, dispatch coordination, settlement, compliance documents. We've built the full carrier ops stack that solves exactly that:

- AI-powered dispatch automation (load matching runs without a dispatcher)
- Automated document engine (rate cons, agreements, BOLs generated instantly)
- Driver onboarding portal (digital application, doc upload, e-signature)
- Settlement & invoice automation (weekly payouts calculated automatically)
- Mobile app published on Android

The partnership model:

You offer these tools to your carrier base under your brand or as a TruckSmarter premium tier. You set the price, collect the subscription, pay IEBC a wholesale rate, and keep the margin. Your users get infrastructure they can't build. You get a new recurring revenue stream on top of the audience you've already built.

On the 3LL side, we're also ready to post loads directly to your board as an active broker — so this relationship works in both directions from day one.

I'm not looking for a lengthy procurement process. Just a 20-minute call to see if the numbers make sense for both sides.

Do you have 20 minutes this week or next?

Cecilia Gulley Chief Strategy Officer 3 Lakes Logistics / IEBC Business Consultants cece@3lakeslogistics.com | Detroit, MI

The Rule: Three Touches, Then Pivot

If no response after the first email, execute Day 7 and Day 14 follow-ups below. If still no response after Day 14, try the alternate contact strategy in Section 7. Never send more than 3 unsolicited emails to the same person.

**DAY 7
FOLLOW-UP****Email 2 — Quick Bump**

Subject: Re: Partnership Opportunity — Revenue-Share on Carrier Tech

"Hi [Name] — just bumping this up in case it got buried. Happy to send a one-pager if it's easier to review async. Either way, let me know if there's a better person to connect with on your end. — Cecilia"

**DAY 14
FOLLOW-UP****Email 3 — New Angle (Broker First)**

Subject: We just started posting loads on TruckSmarter — quick question

"Hi [Name] — separate from my earlier note, 3 Lakes Logistics just got approved as a broker on TruckSmarter and posted our first load this week. Really impressed with the platform. If there's an opportunity to talk about a deeper partnership at some point, we'd love that. Even a 10-minute intro call would be great. Best, Cecilia"

**DAY 21
PIVOT****Try the CEO / Co-Founder Directly**

If the partnerships contact hasn't responded in 21 days, search LinkedIn for TruckSmarter's CEO or Co-Founder and send a direct LinkedIn connection + short message. Use the same framework but mention you've already been posting loads on the platform. Founders respond to active users and customers.

How to Search on LinkedIn

Go to LinkedIn → search "TruckSmarter" → Company page → People tab. Then use the title filters below in order. Target whoever appears at the highest priority first.

Priority 1

VP / Head of Partnerships

Also try: "Director of Partnerships,"
"Head of Business Development,"
"BD Lead"

Priority 2

VP / Head of Growth

Also try: "Growth," "Revenue,"
"Head of Sales" — they often own
BD at early-stage companies

Priority 3

CEO / Co-Founder

At a startup this size, founders often
own partnership decisions. Reach
out directly if no BD role found.

Email Format Guessing (if hunter.io doesn't work)

Most startups use: firstname@trucksmarter.com or firstname.lastname@trucksmarter.com. Try partnerships@trucksmarter.com and hello@trucksmarter.com as fallback. Check their website footer — many companies list a contact email there.

8 REVENUE MODEL — WHAT WE MAKE

Show this on the call

REVENUE STREAM	HOW IT WORKS	TRUCKSMARTER GETS	3LL / IEBC GETS
Load Board Posting	3LL posts loads free on their board	More load inventory for drivers	Free carrier coverage + no board fees
Carrier Tech — Starter	Dispatch automation + documents sold to owner-ops at \$99/mo	~\$40–60/user/mo (markup kept)	\$39–49/user/mo wholesale
Carrier Tech — Pro	Full suite (AI agents, settlement, mobile app) at \$299/mo	~\$100–150/user/mo (markup kept)	\$149/user/mo wholesale
Onboarding + Setup	One-time setup fee per carrier onboarded	Optional rev share on setup	\$199–499 one-time per carrier
100 Carrier Users	Mix of Starter + Pro at avg \$75/mo	~\$5,000–7,500/mo margin	\$4,900–7,500/mo recurring
500 Carrier Users	Scale scenario at avg \$75/mo	~\$25,000–37,500/mo	\$24,500–37,500/mo recurring

Key Talking Point for the Call

"You already have the users. We already have the product. The only thing missing is the distribution agreement. TruckSmarter keeps the customer relationship, sets the price, and earns the margin. IEBC handles the tech, support, and delivery. You add a revenue line without building anything."

9 EXECUTION TIMELINE

Full 30-day roadmap

BROKER SETUP

- ☐ Go to trucksmarter.com — find broker signup page
- ☐ Submit broker application with 3LL MC# and DOT#
- ☐ Use cece@3lakeslogistics.com as account email
- ☐ Receive broker approval email (1–3 days)
- ☐ Log into broker portal and confirm access
- ☐ Post first 3LL load — screenshot it
- ☐ Track carrier inquiries coming into Eagle Eye

OUTREACH EXECUTION

- ☐ Search LinkedIn for TruckSmarter partnerships contact
- ☐ Write down contact name, title, and profile URL
- ☐ Find their email via hunter.io or company site
- ☐ Send LinkedIn connection request (script in Section 4)
- ☐ Send partnership email (script in Section 5)
- ☐ Log send date and contact name in Eagle Eye
- ☐ Send Day 7 follow-up if no reply
- ☐ Send Day 14 follow-up if no reply
- ☐ Notify Mark immediately when reply received
- ☐ Schedule intro call and confirm with Mark

When They Reply — Notify Mark Immediately

The moment TruckSmarter responds to any outreach — email, LinkedIn, or phone — notify Mark Odom directly before responding further. Do not negotiate deal terms, pricing, or tech specs without Mark on the call. Cecilia's job is to open the door. Mark closes the deal.
